

**The 11th Annual  
Thank You Project Water Walk!  
Saturday, September 12, 2026**

Name of participant: \_\_\_\_\_

I am participating in the **Thank You Project's Water Walk**, and I would like your support. I will be walking a two mile loop from Greeley Park in Nashua to the Concord Street Bridge, where I will collect water before returning to Greeley Park. This walk is to reflect the walk women and children must take every day (often over 10 miles each way) to collect water from unclean rivers in Africa. One of the goals of the Thank You Project is to provide two rural communities in Nigeria (Ututu and Achi) with fresh water wells and offer university scholarships to deserving indigent students..

Any contribution you make will help make this dream a realization. Please make checks out to **Thank You Project**. All contributions are tax-deductible. Thank you! Find out more at: [thankyouproject.org](http://thankyouproject.org)
